WRITE WINNING NIH GRANT PROPOSALS

Tuesday, September 16, 2014
8:30 a.m. - 4:30 p.m.
A professional development seminar for Texas A&M PI-eligible researchers.
Limited seating may be available for post-doctoral researchers.
See website for additional information.

Rudder Tower, Room 601
Texas A&M University Campus
The workshop will be offered via TTVN where available.

All principal investigators interested in submitting research proposals to the National Institutes of Health (NIH) are invited to learn how to:

• present their case to review committees using proven tips and strategies,
• write with a linear progression of logic that leads the reviewers through the application proposal, and
• write for two review audiences—those reading a proposal in its entirety and those reading critical sections only.

Register by Sept. 9 at:
vpr.tamu.edu/researchdevelopment/registrations/nih-grant-writing

No fee to attend.
Registration is required.
Lunch on your own.

Principal investigators who plan to apply for the subsequent six-month 2015 NIH Grant Proposal-Writing Program must attend this seminar or have attended the February 2014 seminar.

Seminar Leader:
Dr. John D. Robertson
