Texas A&M University’s standing today—as one of the largest research universities in the United States—is testament to more than 125 years of visionary planning and strategic investment.

Texas A&M's rare triple designation as a land-, sea-, and space-grant institution reflects the broad scope of its research, which includes ongoing projects funded by prominent and diverse agencies such as NASA, the National Institutes of Health, the National Science Foundation, and the Office of Naval Research. As a member of the prestigious Association of American Universities—one of only sixty-five institutions with this distinction—Texas A&M has branch campuses in Galveston, Texas, and Doha, Qatar. The University maintains formal agreements for research collaborations and faculty–student exchanges with more than 117 institutions in forty countries, plus active research programs on all continents.

**INNOVATION AT TEXAS A&M**

Cited nationally for “tangible contributions to the public interest,” Texas A&M remains true to its land-grant mission. Texas A&M turns discovery into deeds, develops tools and expertise designed for real-world applications, and delivers products and services that improve the lives of Texans.

The Texas A&M Transportation Institute (TTI) has a breadth and depth of programs, facilities, and capabilities unsurpassed by any other higher-education-affiliated transportation research organization in the United States. Texas A&M AgriLife Research is the state’s premier research agency in agriculture, natural resources, and the life sciences. The Texas A&M Engineering Experiment Station (TEES) serves the state through engineering and technology-oriented research and educational collaborations.

Combined, their research significantly impacts the health, safety, and quality of life of Texas citizens and contributes to the state’s economic growth and development.

**CENTERS AND INSTITUTES**

Research centers and institutes play an important role in the academic landscape at Texas A&M, bringing together scholars and scientists—often from different disciplines—to tackle major research challenges. View a complete list at research.tamu.edu

**CORE FACILITIES**

Core facilities at the Division provide researchers and students access to state-of-the-art instrumentation, technologies, and specialized scientific services. These include:

- Global Health Research Complex
- High Performance Research Computing
- Materials Characterization Facility
- Microscopy and Imaging Center
- Texas A&M Institute for Genome Sciences and Society
- Texas A&M Energy Institute
- Texas A&M Institute of Data Science

**IN THE NATION**

**NSF HIGHER EDUCATION RESEARCH AND DEVELOPMENT SURVEY**

(Based on total research expenditures of $952M for fiscal year 2019 NSF)

Texas A&M is ranked #22 among the nation’s leading institutions for research and development, according to the NSF Higher Education Research and Development Survey. This is the highest ranking among the Texas public research universities and among Texas A&M’s peer institutions. Texas A&M’s research and development expenditures are growing at a rate of 15% per year, significantly above the rate of inflation. Texas A&M is a top 25 institution in the nation for federal research expenditures.

FACULTY HONORS

11 Members  American Academy of Arts and Sciences
58 Faculty  AAAS Fellows
14 Members  American Law Institute
12 Members  John Simon Guggenheim Memorial Foundation Fellows
29 Members  National Academy of Engineering
13 Members  National Academy of Inventors
11 Members  National Academy of Inventors Senior Fellows
4 Members  National Academy of Medicine
7 Members  American Academy of Nursing
14 Members  National Academy of Sciences
40 Recipients  Traditional Fulbright Fellowship
85 Faculty  University Distinguished Professors
3 Recipients  Wolf Prize

FACULTY NOBEL PRIZES

Dudley R. Herschbach  Nobel Prize in Chemistry, 1986
David M. Lee  Nobel Prize in Physics, 1996

RESEARCH EXPENDITURES  |  FY 2020  Dollars in Millions

$1.131B
Total

Computer and Information Sciences  $17.4
Mathematics and Statistics  $8.7
Geosciences, Atmospheric, and Ocean Sciences  $107.8
Physical Sciences  $54.1
Life Sciences  $502.3
Psychology  $5.2
Social Sciences  $29.4
Other Sciences  $5.6
Non-S&E Fields  $40.8
Engineering  $339.4
