Texas A&M University’s standing today—as one of the largest research universities in the United States—is testament to more than 125 years of visionary planning and strategic investment.

INNOVATION AT TEXAS A&M
Cited nationally for “tangible contributions to the public interest,” Texas A&M remains true to its land-grant mission. Texas A&M turns discovery into deeds, develops tools and expertise designed for real-world applications, and delivers products and services that improve the lives of Texans.

The Texas A&M Transportation Institute (TTI) has a breadth and depth of programs, facilities and capabilities unsurpassed by any other higher-education-affiliated transportation research organization in the United States. Texas A&M AgriLife Research is the state’s premier research agency in agriculture, natural resources, and the life sciences. The Texas A&M Engineering Experiment Station (TEES) serves the state through engineering and technology-oriented research and educational collaborations.

Combined, their research significantly impacts on the health, safety and quality of life of Texas citizens and contributes to the state’s economic growth and development.

CENTERS AND INSTITUTES
Research centers and institutes play an important role in the academic landscape at Texas A&M, bringing together scholars and scientists—often from different disciplines—to tackle major research challenges. View a complete list at research.tamu.edu

IN THE NATION
#20
NSF HIGHER EDUCATION RESEARCH and DEVELOPMENT SURVEY

(Based on total research expenditures of $922M for fiscal year 2018 NSF)

Texas A&M’s rare triple designation as a land-, sea-, and space-grant institution reflects the broad scope of its research, which includes ongoing projects funded by prominent and diverse agencies such as NASA, the National Institutes of Health, the National Science Foundation, and the Office of Naval Research. As a member of the prestigious Association of American Universities—one of only sixty-two institutions with this distinction—Texas A&M has branch campuses in Galveston, Texas, and Doha, Qatar. The University maintains formal agreements for research collaborations and faculty–student exchanges with more than 117 institutions in forty countries, plus active research programs on all continents.

CORE FACILITIES
Core facilities at the Division provide researchers and students access to state-of-the-art instrumentation, technologies, and specialized scientific services. These include:

- Global Health Research Complex
- High Performance Research Computing
- Materials Characterization Facility
- Microscopy and Imaging Center
- Texas A&M Institute for Genome Sciences and Society
- Texas A&M Energy Institute
- Texas A&M Institute of Data Science

FACULTY HONORS

11 Members  American Academy of Arts and Sciences
49 Faculty  AAAS Fellows
13 Members  American Law Institute
12 Members  John Simon Guggenheim Memorial Foundation Fellows
23 Members  National Academy of Engineering
12 Members  National Academy of Inventors
8 Members  National Academy of Inventors Senior Fellows
4 Members  National Academy of Medicine
6 Members  National Academy of Nursing
12 Members  National Academy of Sciences
53 Recipients  Traditional Fulbright Fellowship
89 Faculty  University Distinguished Professors
3 Recipients  Wolf Prize

FACULTY NOBEL PRIZES

Dudley R. Herschbach  Nobel Prize in Chemistry, 1986
David M. Lee  Nobel Prize in Physics, 1996

RESEARCH EXPENDITURES | FY 2019 Dollars in Millions

Total $952M

Computer and Information Sciences
Psychology
Social Sciences
Life Sciences
Mathematics and Statistics
Other Sciences
Geosciences, Atmospheric, and Ocean Sciences
Non-S&E Fields
Physical Sciences
Engineering
