Texas A&M
ENERGY INSTITUTE

DISCOVERING ENERGY SOLUTIONS, IMPROVING QUALITY OF LIFE

The Texas A&M Energy Institute pursues and supports new approaches for multi-disciplinary energy research, education, and external partnerships. These approaches cross departmental and college boundaries and address all facets of the energy landscape that naturally connect engineering, sciences, technologies, economics, law, and policy decisions.

With 260 faculty affiliates from nine colleges and schools, more than 20 Texas A&M University departments, two Texas A&M University branch campuses, and three Texas A&M University System member institutions, along with a unique community of more than 450 doctoral students and postdoctoral fellows in the Texas A&M Energy Research Society, cutting-edge solutions are being realized through true interdisciplinary collaborations that will address the complexity and challenges of the world’s energy future.
Three Pillars
of the Texas A&M Energy Institute

Transform the Energy
Research Landscape

Fossil & Non-Fossil based Technologies for Energy
Materials, Catalysis, & Separations for Energy
Multi-scale Energy Systems Engineering
Energy Economics, Law, Policy, & Societal Impact
Systems
Data Sciences
Manufacturing

260 Faculty Affiliates

Water-Energy-Food Nexus

Educate
the Next Generation of
Leaders in Energy

Master of Science in Energy
Certificate in Energy
Energy Institute Graduate Fellowships
Texas A&M Energy Research Society
Energy Institute Lecture Series
Distinguished Lecture in Energy

Establish a Vibrant
External Partnerships
Program in Energy

Research Collaborations
Partner Workshops
Industrial Consortium
Technology Briefs & Benchmarking
Visitors-In Residence
Energy Fellows
