These procedures do not apply to the hiring and employment of graduate assistants. These procedures are intended to supplement [University Rule 33.99.08.M1](#), *Student Employment* and [University Standard Administrative Procedure 33.99.08.M1.03](#), *Procedure for Hiring Student Employees*.

Posting Student Employee Positions (Optional)

The supervisor may post the student employee position on the Jobs for Aggies website. Posting for at least 48 hours is recommended. Supervisors are encouraged to visit the [Jobs for Aggies](#) website for helpful information about posting positions and supervising student employees.

The Hiring Process

Supervisors should follow the “Preparing to hire a Student Employee” steps on the [Student Employee Hiring Checklist](#).

During the interview process, ask the applicant if they will be working for another System department. If so, explain to them that their total hours (between both jobs) MUST be 29 hours or less per week if they are hired.

When an applicant is chosen, the supervisor shall complete the [Student Employee Hiring Checklist](#).

- Verify that the student meets the definition of student employee, request proof of enrollment, and verify work study eligibility if applicable.
- Inform the student that employment cannot begin until the student provides original, unexpired [documentation proving identity and employment eligibility](#). There will be no exceptions; photocopies are not acceptable.

After the Hire

During the course of the student’s employment, the supervisor is responsible for:

- Reviewing the employee’s time records (in TimeTraq) for accuracy and ensuring all employees are submitting their time according to the [DOR biweekly pay schedule deadlines](#).
- Informing the unit’s HR office upon any change in status of the student employee and submitting any forms that may be required.
- [Evaluating](#) each student employee on an annual basis to provide feedback on the student’s performance.

Titles

The following titles may be assigned to student employees based on their job duties.

- [Student Assistant/Non-Affiliated Student Assistant](#) - A person with a few special skills and little or no previous training or work experience. A minimum amount of training is necessary to prepare the employee for work. The employee is generally well supervised and jobs are of a routine nature requiring little decision making.
- [Student Coordinator/Non-Affiliated Student Coordinator](#) - Persons classified at this level require a moderate to high degree of mental activity and independent judgment in addition to extensive previous training and experience. The work performed involves decision making, responsibility for the safety of

persons and property or supervision of other student employees and may be an essential function of departmental operations.

- Student Technician/Non-Affiliated Student Technician - Persons classified at this level must have technical skills, knowledge of the job, or be in a training phase of a technical position, would need little to a moderate amount of supervision, and would occasionally be placed in a supervisory position. Since other student employee classifications require ordinary skills and abilities, the technician classification will be awarded sparingly.
