

Texas A&M University

RESEARCH IS AT OUR CORE

Texas A&M University's standing today—as one of the largest research universities in the United States—is testament to more than 125 years of visionary planning and strategic investment.

DEVELOPMENT SURVEY

(Based on total research expenditures of \$1.153 billion for fiscal year 2022)

Texas A&M's rare triple designation as a land-, sea-, and space-grant institution reflects the broad scope of its research, which includes ongoing projects funded by prominent and diverse agencies such as NASA, the National Institutes of Health, the National Science Foundation and the Office of Naval Research. As a member of the prestigious Association of American Universities—one of only 69 institutions with this distinction—Texas A&M has branch campuses in Galveston, Texas and Doha Qatar. The university currently has 5,285 sponsored projects with 987 unique external sponsors.

INNOVATION AT TEXAS A&M

Cited nationally for “tangible contributions to the public interest,” Texas A&M remains true to its land-grant mission. Texas A&M turns discovery into deeds, develops tools and expertise designed for real-world applications, and delivers products and services that improve the lives of Texans.

The Texas A&M Transportation Institute (TTI) has a breadth and depth of programs, facilities and capabilities unsurpassed by any other higher-education-affiliated transportation research organization in the United States. Texas A&M AgriLife Research is the state's premier research agency in agriculture, natural resources and the life sciences. The Texas A&M Engineering Experiment Station (TEES) serves the state through engineering and technology-oriented research and educational collaborations.

Combined, their research significantly impacts the health, safety and quality of life of Texas citizens and contributes to the state's economic growth and development.

CENTERS AND INSTITUTES

Research centers and institutes play an important role in the research and academic landscape at Texas A&M, bringing together scholars and scientists—often from different disciplines—to tackle major research challenges. View a complete list at research.tamu.edu

DIVISION CENTERS AND INSTITUTES

Core facilities in the division provide researchers and students access to state-of-the-art instrumentation, technologies and specialized scientific services. These include:

- ▶ High Performance Research Computing
- ▶ International Ocean Discovery Program (IODP)
- ▶ Microscopy and Imaging Center
- ▶ Texas A&M College Sea Grant Program
- ▶ Texas A&M Energy Institute
- ▶ Texas A&M Global Cyber Research Institute endowed by Ray Rothrock '77 and Anthony Wood '90
- ▶ Texas A&M Global Health Research Complex
- ▶ Texas A&M Institute for Disaster Resilient Texas
- ▶ Texas A&M Institute for Genome Sciences and Society
- ▶ Texas A&M Institute for Neuroscience
- ▶ Texas A&M Institute of Data Science

FACULTY HONORS*

14 Members	American Academy of Arts and Sciences (AAAS)
58 Faculty	AAAS Fellows
16 Members	American Law Institute
8 Members	John Simon Guggenheim Memorial Foundation Fellows
34 Members	National Academy of Engineering
15 Members	U.S. National Inventors Hall of Fame
17 Members	National Academy of Inventors Fellow
6 Members	National Academy of Medicine
6 Members	American Academy of Nursing
17 Members	National Academy of Sciences
47 Recipients	Traditional Fulbright Fellowship
95 Faculty	University Distinguished Professors
3 Recipients	Wolf Prize

FACULTY NOBEL PRIZES*

Dudley R. Herschbach	Nobel Prize in Chemistry, 1986
David M. Lee	Nobel Prize in Physics, 1996
Bruce McCarl	Nobel Peace Prize, 2007
